I've made two changes since I sent it to you:

- 1) The TAC will have a workshop to discuss the CMP and State of the Bay report in September of this year.
- 2) The QAPrP, will be developed a submitted to the EPA by SMBNEP staff.

All,

Please consider this the final working draft.

I didn't include the processes that occur between the host and the region and headquarters as there is time to roll that out to my MC in the coming months.

I welcome your suggestions and comments...

In August I expect we break down the BRP against our latest work plan and get started...

Thanks!

Tom
